

Part #	Description	PSI
35-008-010	9/16" MP RH Rupture Disc Assy.	20K Range

20K Rupture Discs

Advanced Pressure Systems offers a complete range of Rupture Discs for use in the Rupture Disc. These discs will protect your personnel, pumps and associated equipment from over-pressuring. The standard range of disc bursting pressures are carefully selected to provide the ideal safety relief for all of your equipment. Special ratings can be provided upon request. Rupture discs for NLB & Jetstream equipment are also available to order.
