

WATER JETTING GUNS

DUMP & DRY SHUT

10.000 - 15 - 20.000 PSI

Fast and easy change of wear parts in a cartridge like repair kit.

Integrated hose swivel gives freedom in movement.

Safety latch can be released without loosing the grip.

Shoulder rest for less fatigue.

Adjustable side handle for better handling.

Dump:

A dump gun close of the un-pressurized dump port when triggered and releases the flow when the trigger handle is released. The gun works without an un-loader or relief-valve.

Dry Shut:

A dry shut gun opens for the water flow when triggered and shuts of when the trigger handle is released. The gun works together with an un-loader or relief-valve.
