

# HIGHLY EFFECTIVE SELF-ROTARY WATERBLASTING TOOLS

## GENERAL FEATURES

Scimitar are fundamental tools for waterblasting featuring an efficient speed control system, adjustable thanks to a magnetic brake with easy-rotation of the handle grip. Specially developed for surface treatment, they can be mounted on gun lance or automatized systems.

These lightweight tools are particularly efficient for surface preparation. Scimitar are easy-to-use and easy-to-maintain tools, suitable for many different working areas.

## BENEFITS

- Compact and lightweight
- Stainless steel made
- Wide range of speed by simply rotating the handle grip
- Magnetic brake technology
- Quick replacement of head and four sapphire nozzles
- Titanium head available for low flow applications
- Four-port heads can easily be configured for two-port applications

## SCIMITAR 40K

MAX  
RPM  
4000

MAX  
25 l/min  
6,6 gpm

MAX  
2800 bar  
40 kpsi
